Dear JITO Family,

Finally the yearlong collective and collaborative exercise by team KPMG has reached its logical conclusion. We have rolled out the standardized organization structure, well defined roles and responsibilities, standard operating procedures (SOPs) for all the committees of JITO at Apex, Zones, Projects, Wings, Chapters and secretariat. ## From the desk of **SECRETARY GENERAL** JITO Apex

Dear JITO Pariwar

Pranam

The last few months have been quite eventful for JITO. After laying low for a long period, every Chapter, Zone, Wing and Project is back into action with a bang. Starting from Sameeksha in December 2021 to Symphony in March 2022, JITO has risen like a phoenix and continues to march on and it brings me immense joy to see a slew of back to back activities and events lined up by every constituent of JITO.

One amongst many, the key marquee project JPoint, which is the Ecommerce portal, is on the verge of going live soon. JPoint is packed with a host of user-friendly features and tools on the back of cutting-edge technology to deliver a superlative customer experience both for buyers and sellers.

After having delivered the SOPs to the respective stakeholders, KPMG conducted SOP orientation sessions for Chapters and Zones from 23rd February to 25th February 2022. We hope everyone would have started implementing the SOPs by now.

Another most awaited offering from JITO is the soon to be launched app "JITO World" which will encompass every aspect of functioning of JITO. From members' directory to chapter compliance status to event calendar and much more, JITO World will be the solution to all requirements that a chapter/zone/wing or project may have.

Starting at the end of March, myself and the Apex Working committee are embarking on a 45-day journey across zones, visiting chapters and connecting with our JITO Pariwar and prominent members of the community to share the glorious journey of JITO over the years and extend our reach beyond the horizon.

Looking forward to joining you in your celebrations of success.

- HITESH DOSHI

# JITO MARKET PLACE

**W**ith the turn of the century, the world has changed with the way it does business. What started as a small idea a little more than a decade back is now a behemoth, churning out billions of dollars' worth of transactions every day. Yes, E-Commerce has completely transformed the way people conducted their businesses. The world has suddenly become a small place where any person can do business with anyone in any corner of the world.

These growing numbers gave rise to several new modern-day challenges relating to multiple e-commerce platforms that still concern consumers, sellers, businesses, and buyers of all kinds.

To fill the existing gaps of the e-commerce industry JITO (Jain International Trade Organisation) has launched JPoint, an online marketplace which fulfils the objective of Economic Empowerment, which is one of the three DNAs of JITO. JPoint is a landmark project of JITO which aims not only to provide a common business platform to the members of the community but a conducive and business friendly ecosystem. With the help of modern digital tools, JPoint will open up a window of countless business opportunities and reach out to a larger universe of buyers.

## JPOINT

Every business person and professional from the community can now offer their products and services with complete peace of mind with the backing of trustworthy networks and community support.

JPoint will prove to be a game changer in the days to come and will evolve as the preferred medium of doing business by the members of the community

With regards,

# SOPs ROLLOUT FOR ZONES & CHAPTERS

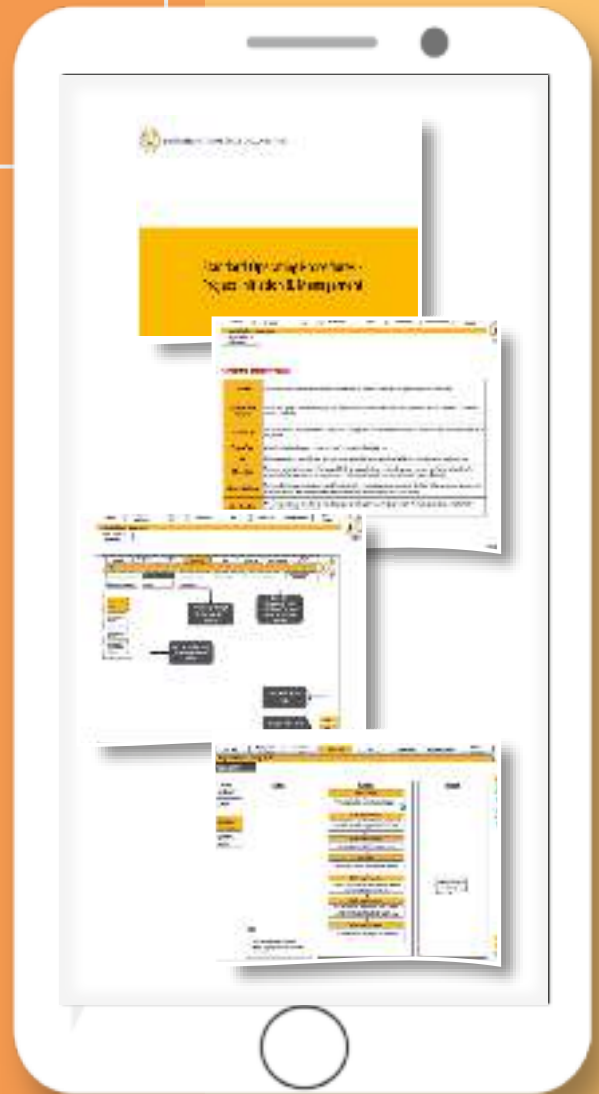

**A**fter months of intense activities including 60+ cluster meetings with 500+ hours brainstorming discussions with the office bearers and Secretariat, we are pleased to inform that after implementing the processes and SOPs at the Secretariat, we rolled out the SOPs for the Chapters and Zone from 24th February.

The SOPs for Zones and Chapters include core functions, support functions, term-plan (targets), Roles and Responsibilities of office bearers and hand over take over (HOTO) modalities for standardising entire operations.

The orientation for Zone and Chapter teams started on 23rd February during which the KPMG team gave a complete rundown of these SOPs which involve different aspects of the functioning of Zones & Chapters as well as target setting for activities under various Apex Projects. The presence of Project Chairmen during the Zone SOP rollout was extremely crucial. This ensured Projects, Wings, Zones and Chapters are in complete sync when the targets are finalized.

On 24th and 25th February, the orientation was divided between 2 group of Zones with their respective chapters, in order to have focused discussion with the chapters.

Echoing our Chairman, President and Vice- President's words, this was a watershed moment for JITO. It is from here that the organization takes a completely different trajectory and moves into a higher orbit. The ideation is now complete and now it is the time for the implementation of the SOPs in both letter and spirit.
